Infosafe No™ 1HAUA	Issue Date :September 2009	ISSUED by HAYMES	CS: 1.4.21
--------------------	----------------------------	------------------	------------

Product Name **PAPER FACED PLASTERBOARD SEALER**

Not classified as hazardous according to criteria of NOHSC

COMPANY DETAILS

Company Name	HAYMES PAINT
Address	P.O Box 167 WENDOUREE VICTORIA 3355 Australia
Tel/Fax	Tel: 03 5342 6200

IDENTIFICATION

Product Code	PFPS
Product Name	PAPER FACED PLASTERBOARD SEALER
Poisons Schedule	Not Scheduled
Product Use	As a high quality water based vinyl sealer for use on interior walls and ceilings made from paper faced plasterboard.

Physical Data

Appearance	White viscous liquid.
Boiling Point	Initial boiling point 100°C
Vapour Pressure	As for water.
Specific Gravity	Approx. 1.40
Flash Point	Not applicable; water based paint.
Flamm. Limit LEL	Not applicable
Explosion Data	Not applicable

Other Properties

Volatile Component	Approximately 43%
Autoignition Temp.	Not applicable
Vapour Density	Approx. 1
pH Value	8 - 10
Form	Liquid
Other Information	Emulsifiable mixture.

Ingredients

Ingredients	Name	CAS	Proportion
	Copolymer emulsion	Not required	20-40 %
	Water	7732-18-5	20-30 %
	Extenders, defoamer, dispersant and thickeners	PROPRIETARY	20-30 %
	C.I. Pigment White 6.	13463-67-7	15-25 %
Other Information	Water based sealer consisting of a polyvinyl acetate copolymer emulsion plus pigment, extenders, dispersants, defoamers and a bactericide.		

HEALTH HAZARD INFORMATION

Health Effects

Acute - Swallowed	No adverse effects expected due to swallowing of small amounts incidental to industrial handling. Ingestion of large amounts should be treated with caution and medical advice sought.
Acute - Eye	May cause slight eye irritation.
Acute - Skin	Repeat or prolonged contact with skin may lead to irritation.

Material Safety Data Sheet

CS: 1.4.21

Infosafe No™ 1HAUA	Issue Date :September 2009	ISSUED by HAYMES	CS: 1.4.21
--------------------	----------------------------	------------------	------------

Product Name **PAPER FACED PLASTERBOARD SEALER**

Not classified as hazardous according to criteria of NOHSC

Acute - Inhaled	No adverse effects anticipated by this route of exposure due to low vapour pressure. However it is good work practice to avoid prolonged inhalation of the vapours which may cause slight irritation of nose and respiratory tract.
------------------------	---

First Aid

Swallowed	Rinse mouth with water. Give plenty of water to drink. Do not induce vomiting. Seek medical advice if adverse effects occur.
Eye	Irrigate eye with copious quantities of water for at least 15 minutes. Hold eyelids open. In all cases of eye contamination, it is a sensible precaution to seek medical advice.
Skin	Wash contaminated skin with plenty of water and soap. Remove heavily contaminated clothing and laundry before re-use. Seek medical advice if irritation develops.
Inhaled	Remove to fresh air. Allow patient to assume most comfortable position, keep warm and at rest until fully recovered. Seek medical advice if symptoms persist.

Advice to Doctor

Advice to Doctor	No specific antidote. Supportive care. Treat symptomatically.
-------------------------	---

Other Health Hazard Information

PRECAUTIONS FOR USE

Exposure Limits	None established for this product by Worksafe Australia. However exposure standard data exists for minor components of the water based paint. Workplace Exposure Standards (WES)# for; vinyl acetate (residual monomer of resin, at < 0.2% w/w): 10ppm TWA; 20 ppm STEL Paint also contains talc, mica, calcium carbonate (chalk, whiting), and clay, each of which has a WES, but solids are bound into the paint and as such the applicable standards are not relevant.
Eng. Controls	Use in a well ventilated area only.

Personal Protection

Protective Equip.	Avoid skin and eye contact. Wear clean body-covering clothing, impervious gloves that provide a water barrier and wear safety glasses with side shields. No respiratory protection required under normal conditions of use. Wash hands thoroughly before eating or drinking.
--------------------------	--

Flammability

Fire Hazards	Not combustible as supplied.
---------------------	------------------------------

SAFE HANDLING INFORMATION

Storage and Transport

Transport	Not classified as Dangerous Goods, according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.
Storage and Transport	Not classified as a dangerous good for transport by road or rail in the Australian Dangerous Goods Code. Store in a cool place out of direct sunlight. Keep containers closed when not in use.
Other Storage Info.	Read the use instructions on the label and observe recommendations.

Spills and Disposal

Spills & Disposal	SPILLAGE: Contain using sand, earth or other inert material. Prevent contamination of sewers, drains and waterways. Wear suitable protective equipment to prevent skin and eye contamination. Collect wastes with suitable absorbent (sand, earth or vermiculite) and store in sealable, labelled containers for disposal. DISPOSAL: Dispose of waste in accordance with Local, State and Federal EPA waste regulations. Normally suitable for disposal to an approved landfill. Wash residues from contaminated area with copious quantities of water.
------------------------------	--

Product Name **PAPER FACED PLASTERBOARD SEALER**

Not classified as hazardous according to criteria of NOHSC

Fire/Explosion Hazard

Fire/Explos. Hazard	Product is water based emulsion and will not burn. Dried resin may burn. EXTINGUISHING MEDIA: Use foam carbon dioxide or water fog to extinguish burning dried resin.
Hazardous Reaction	Stable at normal conditions. Addition of chemicals and freezing temperatures may cause coagulation.

OTHER INFORMATION

Toxicology	No acute or chronic toxicity data available for this product. If recommended precautions for handling and use are adhered to no adverse effects are anticipated. Trace residual monomers in the polymer emulsion are not considered to present a significant hazard under normal work practices and conditions.
Environ. Protection	No data available for this formulation. May be harmful to aquatic life. Avoid contamination of waterways, drains or sewers. Dilution in water will make the water milky and possibly solids in the paint will separate and sink to bottom of system.
Pkg. & Labelling	No specific requirements with respect to dangerous goods regulations, workplace OH & S regulations or poisonous substances control regulations. Paint conforms with the Uniform paint Standard, Schedule 'P' of SUSDP.
Manufacturers Advice	When surfaces, previously sealed with this coating or similar coatings containing titanium dioxide and/or talc and/or calcium carbonate and/or diatomaceous earth, are prepared by dry sanding or dry blasting techniques it is recommended that an air-purifying (dust) respirator be worn to control the inhalable dust concentrations to less than the recommended Workplace Exposure Standards published by Worksafe Australia (See reference below). For some operations local exhaust ventilation may be required to meet this level of control.
