

SITE SPECIFIC Risk Assessment

Date:	New	✓	Revised	Page	

TRADE: TEXTURE COATING APPLICATOR

Job No:	7639/15	Client:	LEECH & TORR
Address:	11 Stringybark Avenue, Cranebrook NSW	Supervisor:	Tony Grubesic

Key:	"1" action now	"2" action ASAP	"3" action ASAP
------	----------------	-----------------	-----------------

- Note 1: Refer to the general Safety Plan and Safe Work Method Statement.
- **Note 2:** Safe work procedures shall be implemented for the supply and use of a *hazardous chemical / substance/s* on site that complies with the material data sheet recommendations and also complies with the requirements of WHS Regulation 2011 Chapter 3 Part 3.2
- **Note 3:** all *manual tasks* to comply with the requirements of Safe Work Australia National Code of Practice for Manual Handling 2009 and /or WorkCover NSW Code of Practice Hazardous manual tasks

Note 4: Review of Control Measures - If there are any tasks that may be included by way of variation to the plans or an alternative approach to the set task, it is a requirement to carry out a "specific Risk Assessment" for the task or tasks.

Job Step / Hazard	Potential Harm	Likely	Possible	Unlikely	Major	Severe	Minor	Priority	Possible Controls	Responsible Person/s	Date
Access to site / work areas - Slips, trips, falls and accessibility - Access ways not clearly defined	Slips, trips and falls		√			✓		3	Assess travel path and distance to work area Ensure unobstructed access to site and work areas.	Site Supervisor / all 'workers'	
Stored materials - Slips, trips, falls and accessibility - Access ways not clearly defined	Slips, trips and falls		√			✓		2	Assess travel path and distance to work area Ensure unobstructed access to work area. Provide and maintain barricades to isolate material and to restrict access. Provide designated waste areas	Site Supervisor / all 'workers'	
Manual tasks	Muscle strain - back injuries Over exertion or repetitive movements		√			√		2	Identify the risks and plan the tasks in consultation with the 'workers' Use task specific trained 'workers' - rotate 'workers' and vary tasks.	Contractor / all 'workers'	

		Lik	elihoo	od	F	Resu	lt				
Job Step / Hazard	Potential Harm	Likely	Possible	Unlikely	Major	Severe	Minor	Priority	Possible Controls	Responsible Person/s	Date
Exposure to UV light / weather - UV light - glare Extreme temperatures	Skin cancer / sun burn - Dehydration - heat stroke or fatigue Sight damage		√			✓		2	Reduce exposure where possible. Monitor 'workers' condition Adequate fluid intake Use appropriate sun screen. Wear appropriate PPE.	Contractor / all 'workers'	
Exposure to dust/ chemical vapours - Hazardous chemical - Biological -	Dust and chemical vapour inhalation / skin and eye allergies/ irritations. Respiratory problems		√			✓		2	Use appropriate PPE - disposable dust / chemical vapour protection.	Contractor / all 'workers'	
Use of battery operated / electrical powered plant and equipment - Electricity - Exposure to noise -	Electrical shock or electrocution Hearing loss Sight damage		✓			√		2	RCD installed on mains supply / portable generator Protect power lead from damage sharp edges / vehicular traffic Use stands and hooks for leads in trafficable areas Guards to plant and equipment fully operational. Use of appropriate PPE. Use task specific trained 'workers'	Contractor/ all 'workers'	
Carry materials. tools to ground floor work area - Slips, trips, falls and accessibility - Inadequate work platform - Site and weather conditions - Gravity - overbalancing Manual tasks	Slips, trips and falls from scaffold / work platform or step ladder Muscle strain -back injuries and cuts Over exertion or repetitive movements.								Identify the risks and plan the tasks in consultation with the 'workers' Assess travel path and distance to work area Ensure unobstructed access to work areas. Use task specific trained and experienced 'workers' - rotate 'workers' and vary tasks. Scaffold located on level ground or firm secure surface. Guardrails to scaffold are in place - work	Contractor/ all 'workers'	

Carry materials and fools up ramp / Scaffold sprains, strains and colds up ramp outs Silps, trips, falls and accessability - land colds with the workers' and work platform complete outs from scaffold / work platform of surface - Silps, trips, falls and accessability - Silps of season outs strains and colds which is season outs strains and colds of season outs strains and colds of season outs strains and colds outs outs outs outs outs outs outs out			Lik	elihoo	od	F	Resu	lt				
Use approved step ladder Limit the use of step ladder Limit the use of step ladders Identify the risks and plan the task in consultation with the workers' and year plan and distance to work area. Carry materials and tools up ramp / scaffold - Slips, trips, falls and accessibility - Sispe of ramp - Back injuries - muscle sprains, strains and cults Weather conditions - wet Manual tasks Working at height from scaffold / work platform complete - use of toe boards / dust screening Use task specific trained workers' crotate workers and vary tasks. Use task specific trained workers' rotate workers and vary tasks and plan the task in consultation with the workers' notate workers' and vary tasks. Working at height from scaffold / work platform / roof surface - Silips, trips, falls and accessibility - Inadequate fall arrants system work platform / roof surface - Fractures, bruises accerations and personal injuries Accessibility screening Perimeter and edge protection when working from roof surface Fractures, bruises accerations and personal injuries Perimeter and edge protection when working from roof surface Maintain clean work area Train 'workers' in safe working at heights.
